

What's happening at Regal Court Business Centre?!

July

Welcome to July!

We're in the seventh month of the year and the fourth month to have the length of 31 days! It was named by the Roman Senate in honour of the Roman general, Julius Caesar, it being the month of his birth. Prior to that, it was called Quintilis.

Thank you EOC!

They're coming in to complete our 6 months maintenance for our aircon and what with the weather the way it is, we couldn't be more thankful!

Not only do we need to thank EOC but also Willis Haviland Carrier who was an American engineer, who invented the first electrical air conditioning unit
