

July

July is the seventh month of the year (between June and August) in the Julian and Gregorian Calendars and the fourth of seven months to have a length of 31 days. It was named by the Roman Senate in honour of Roman general Julius Caesar, it being the month of his birth. Prior to that, it was called Quintilis, being the fifth month of the 10-month calendar.

It is on average the warmest month in most of the Northern hemisphere, where it is the second month of summer, and the coldest month in much of the Southern hemisphere, where it is the second month of winter. The flower for July is the Larkspur and also the water lily. The birthstone is the Ruby.

Welcome Back Sian....

Goodbye Georgia

Cups and glasses in the dishwasher

- Please be careful when putting items in the dishwasher, and that glasses and mugs must be placed on the top shelf only.
- Glasses should be placed on the top shelf on top of the stickup grills which are located on the central parts of the top shelf. This will stop them from moving around and therefore breaking.
- This will also ensure that all the items are cleaned appropriately as all dishwashers are designed to wash plates at the bottom and cups/glasses at the top.

If anyone needs us to run through the procedure we will be more than happy to help. Please contact reception on extension 9000.

A little Health and Safety...

As you are aware we run the centre Monday to Friday 8am-6pm. Within these time we are here to cover all health and safety procedures including the fire alarm system.

However, out of these hours it is up to the individual client to fully understand the procedures in order if something is to happen they know what to do.

But please note in an emergency to ring the centre out of hours number: **01753 910 909**
