

August

August is the eighth month of the year in the Julian and Gregorian calendars, and the fifth of seven months to have a length of 31 days. It was originally named *Sextilis* in Latin because it was the sixth month in the original ten-month Roman calendar under Romulus in 753 BC, and March was the first month of the year. About 700 BC, it became the eighth month when January and February were added to the year before March by King Numa Pompilius, who also gave it 29 days.

In the Southern Hemisphere, August is the seasonal equivalent of February in the Northern Hemisphere. In many European countries, August is the holiday month for most workers. The birthstone for August is the Peridot and the birth flower is the Gladiolus.

The Princes Trust Bake Sale

On Wednesday 10th July, The Princes Trust team held a bake sale in reception to raise money for Swan Life and St Georges Church.

The day was a great success with many cakes and sweet treats to choose from.

They managed to raise a fantastic £152.39 which will definitely make

a difference to

both charities!

Cups and glasses in the dishwasher

- Please be careful when putting items in the dishwasher, and that glasses and mugs must be placed on the top shelf only.
 - Glasses should be placed on the top shelf on top of the stickup grills which are located on the central parts of the top shelf. This will stop them from moving around and therefore breaking.
 - This will also ensure that all the items are cleaned appropriately as all dishwashers are designed to wash plates at the bottom and cups/glasses at the top.
- If anyone needs us to run through the procedure we will be more than happy to help. Please contact reception on extension 9000.

Additionally if anyone has any questions or queries please don't hesitate to ask.
