Is your office cold?

Would you like your office to be warm and ready for you when you arrive each morning?

Contact our reception team to discuss creating a timed schedule for your air-con! With the winter months swiftly approaching it is the perfect chance to have this set up!

Winter Weather

With the weather getting colder, there will be a chance of snow and ice. It is important all persons adhere to common sense protocols and accept they have a responsibility for personal safety by following simple rules:

- Snow and ice present health and safety risks, as the potential for slips, trips and falls increases significantly.
- Walk, don't run.
- Wear appropriate footwear with a non-slip sole. 
- Try where possible to keep your hands free of objects in order to aid balance and minimise the effects of a slip, trip or fall.
- Allow more time for your journey.
- Be mindful of slipping while walking, particularly when using ramps and steps.
- If driving be mindful of skidding when leaving car parks as they may not have been gritted.
