How will you take advantage of the extra sunlight we will now have?

Cups and glasses in the dishwasher

Please be careful when putting items in the dishwasher, and that glasses and mugs must be placed on the top shelf only.

Glasses should be placed on the top shelf on top of the stickup grills which are located on the central parts of the top shelf. This will stop them from moving around and therefore breaking.

If anyone needs us to run through the procedure we will be more than happy to help. Please contact reception on extension 9000.

Additionally if anyone has any questions or queries please don't hesitate to ask.
