### Recycling—Dos & Don'ts!

We have noticed that lots of rubbish continues to be placed in the wrong bins in the communal areas.

With tea bags and food being disposed of in the recycling waste bin, this contamination will cause all the waste in the bin to be re-directed to General waste!

With so much need for everyone to do their part with recycling around the world, a simple change can make a huge difference!

### House Rules—Use of kitchens

Please ensure all cutlery and crockery are placed in the dishwasher.

We have had an increasing amount of items left in the sink and on the side when not necessary. This is resulting in displeasing smells and a messy environment.

**If this continues to occur we will have to remove access to the kitchen over the weekend.**

If anyone needs us to run through the procedure of loading the dishwasher, we would be more than happy to help. Please contact reception on extension 9000.
